

FILLMORE CLASS IVb LANDFILL

Hours Year Round

Monday, Friday and Saturday
1:30 p.m. to 5:30 p.m.

Only construction debris and inert yard waste, limbs, grass, etc are acceptable at this landfill site. Do not dump household waste mixed in with acceptable waste. There is a scrap metal pile available for recycling purposes and a flesh pit for dead animals. All other waste should be taken to the transfer station dumpster west of Fillmore.

MILLARD COUNTY CLASS I LANDFILL

Landfill Hours

9:30 a.m. to 3:00 p.m.
Monday thru Saturday

In an effort to keep the cost of running the landfill at a minimum, you are asked to take all bulky waste, tree limbs, and old appliances to the Landfill rather than placing these and other large volume items in the transfer station dumpsters.

Large appliances and scrap metal that are properly disposed of at the Landfill will be recycled. Disposal of these items, along with large construction type loads, in the dumpsters is very cumbersome and expensive. Abuses of the restrictions on waste disposal at the transfer stations will ultimately result in increased landfill fees and closure of the transfer stations. Your cooperation is appreciated.
